Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Regents of the University of Oklahoma The University of Oklahoma Health Sciences Center Norman, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The University of Oklahoma Health Science Center (the Center), an organizational unit of the Regents of the University of Oklahoma (the Regents), which is a component unit of the State of Oklahoma, which comprise the statement of net position as of June 30, 2020, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the Center's basic financial statements, and have issued our report thereon dated October 16, 2020. Our report includes an emphasis of matter paragraph describing the acknowledgement that the Center is an organizational unit of the Regents and these financial statements reflect only the assets, liabilities, and revenues and expenses of the Center and not the Regents as a whole.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Oklahoma City, Oklahoma October 16, 2020

**CPAs & BUSINESS ADVISORS** 

Independent Auditor's Report on Compliance for the Major Federal Program and on Internal Control
Over Compliance and Report on the Schedule of Expenditures of Federal Awards Required by the
Uniform Guidance

Board of Regents of the University of Oklahoma The University of Oklahoma Health Science Center Norman, Oklahoma

### **Report on Compliance for the Major Federal Program**

We have audited the University of Oklahoma Health Science Center's (the Center) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Center's major federal program for the year ended June 30, 2020. The Center's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for the Center's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Center's compliance.

#### **Opinion on the Major Federal Program**

In our opinion, the Center complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

#### **Report on Internal Control over Compliance**

Management of the Center is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Center's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses and significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002 that we consider to be significant deficiencies.

The Center's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Center's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the Center as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Center's basic financial statements. We issued our report thereon dated October 16, 2020, which contained an unmodified opinion on those financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Oklahoma City, Oklahoma May 20, 2021 except for our report on the schedule of expenditures of federal awards for which the date is October 16, 2020

#### Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of The University of Oklahoma Health Sciences Center (the Center) under programs of the federal government for the year ended June 30, 2020. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Center, it is not intended to and does not present the financial position, changes in financial position, or cash flows of The University of Oklahoma Health Sciences Center.

### Note 2 - Summary of Significant Accounting Policies

Expenditures reported in the schedule are reported on the cash basis of accounting. Federal awards provided to subrecipients are treated as expenditures when paid to the subrecipient. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

For purposes of the Schedule, federal awards have been identified into two types:

- Direct federal awards consisting of federal assistance and federal student financial aid, and
- Pass-through funds received from non-federal organizations made under federally sponsored programs conducted by those organizations.

Complete Catalog of Federal Domestic Assistance ("CFDA") numbers are presented for those programs for which such numbers were available. CFDA prefixes are presented for programs for which a complete CFDA number is not available.

Federal direct programs are presented by federal department and, where applicable, the funding agency within the department. Federal pass-through programs are presented by the entity through which the University received the federal award. Amounts provided to subrecipients from each federal program have been separately identified for additional analysis. These pass-through awards are included in total cash basis expenditures.

The University of Oklahoma Norman Campus administers the Pell Grant program, Supplemental Education Opportunity Grants, College Work-Study, and other grants student award programs for students attending both the Norman and Health Sciences Center campuses of the University. Grant revenues and expenditures under such programs for students attending the Center campus is considered pass through funds and are, therefore, included in the Schedule.

#### Note 3 - Indirect Cost Rate

The University has not elected to use the 10% de minimus cost rate.

#### Note 4 - Provider Relief Funds

The Center received amounts from the U.S. Department of Health and Human Services (HHS) through the Provider Relief Fund (PRF) program (Federal Financial Assistance Listing/CFDA #93.498) during the year ended June 30, 2020. The PRF expenditures are not recognized on the schedule in accordance with the compliance supplement addendum, until the expenditures are included on the reporting to HHS for the calendar year ending December 31, 2020, as required under the PRF program.

### Note 5 - Student Loan Programs

### **Federal Direct Student Loan Program**

Under the Federal Direct Student Loan Program ("Direct Loan Program"), the U.S. Department of Education makes loans to enable a student or parent to pay the costs of the student's attendance at a postsecondary school. The Direct Loan Program enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly from the U.S. Department of Education rather than through private lenders. The Center administers the origination and disbursement of the loans to eligible students or parents. The Center is not responsible for the collection of these loans.

### **Administered Loan Programs**

The federal student loan programs listed subsequently are administered directly by the Center and balances and transactions relating to these programs are included in the Center's basic financial statements. Loans made during the year are included in the federal expenditures presented in the schedule. The balance of loans outstanding at June 30, 2020 consists of:

| CFDA Number | Program Name                     | June 30, 2020 |           |  |
|-------------|----------------------------------|---------------|-----------|--|
| 93.264      | Nurse Faculty Loan Program       | \$            | 9,864     |  |
| 93.342      | Health Professions Student Loans |               | 5,667,775 |  |
| 93.364      | Nursing Student Loans            |               | 1,558,652 |  |

### **Section II – Financial Statement Findings**

None reported.

#### Section III - Federal Award Findings and Questioned Costs

2020-001 Direct Program from U.S. Department of Education

Student Financial Aid Cluster (CFDA #'s 84.268, 84.063, 84.007)

**Special Tests: Enrollment Reporting** 

**Significant Deficiency in Internal Control over Compliance** 

Criteria: A student's enrollment status determines eligibility for in-school status, deferment, and

grace periods, as well as for the payment of interest subsidies to FFEL Program loan holders by ED. Enrollment Reporting in a timely and accurate manner is critical for effective management of the programs. Enrollment information must be reported within 30 days whenever attendance changes for students, unless a roster will be

submitted within 60 days.

Condition: In our student testing, there were students that had a change in enrollment status (i.e.

withdrawal, graduation, reduction from fulltime to part-time) selected for testwork. We identified instances where status changes per the institution's records did not agree to the Department of Education's National Student Loan Data System (NSLDS) final records and other instances where the status change was not reported to NSLDS within the 60-

day requirement.

Questioned Costs: None reported.

Cause: Internal controls do not appear to be fully in place to accurately and timely report to

NSLDS.

Effect: Inaccurate reporting of student enrollment status does not allow the Department of

Education to properly track and monitor students, including initiation of the loan

repayment process.

Repeat finding

From Prior Year: Yes, 2019-001, 2018-001, 2017-001

Context: Out of the 98 sample of enrollment status changes, three status changes were not

reported to NSLDS within the time required by federal guidelines and one of the status

changes did not agree with NSLDS. Non-statistical sampling was used.

Recommendation: We recommend that management update their control processes to ensure that the

proper and timely status date changes are being reported to NSLDS.

Views of Responsible

Officials: Management acknowledges the finding and is implementing internal processes to

ensure timely and accurate reporting of enrollment status date changes to NSLDS.
