

For individual users experiencing issues in Edge connecting PeopleSoft and the OU Marketplace.

1. Open your Edge browser and type in <edge://flags>

2. In the Search Box at the top of the screen, type in **SameSite**.

3. Set **SameSite by default cookies** and **Cookies without SameSite must be secure** from Default to Disabled.

● **SameSite** by default cookies

Treat cookies that don't specify a SameSite attribute as if they were SameSite=Lax. Sites must specify SameSite=None in order to enable third-party usage. – Mac, Windows

Disabled

[#same-site-by-default-cookies](#)

● **Cookies without SameSite** must be secure

If enabled, cookies without SameSite restrictions must also be Secure. If a cookie without SameSite restrictions is set without the Secure attribute, it will be rejected. This flag only has an effect if "SameSite by default cookies" is also enabled. – Mac, Windows

Disabled

[#cookies-without-same-site-must-be-secure](#)

4. Once both of these show **Disabled**. Click **Restart**. You can then exit of Edge and get back into the browser.
